

# Siwat Chairattanamanokorn

Bangkok • siwat.chaira@gmail.com • 0934989797

<https://www.linkedin.com/in/siwat-chaira> • <https://siwatchairat.github.io/shawnchaira>

## Technical Skills

**Languages:** Python, SQL, R

**Databases:** Azure Databricks, DataLake

**Tools:** PowerBI, Excel, PowerPoint, Tableau, AI Tools, DevOps **Models:** K-Means Clustering, PCA, Anomaly Detection

## Education

**University of Melbourne**

Master of Data Science, Second Class Honours

Melbourne, Australia

Feb 2022 – Dec 2023

**University College London (UCL)**

BSc Computer Science, First Class Honours

London, United Kingdom

Sep 2018 – Jul 2021

## Experience

**Bangkok Bank**

**Data Analyst**

Bangkok, Thailand

Dec 2025 – Present

- Automated monthly customer demographics reporting by migrating manual Excel processes to Power BI dashboards, eliminating recurring manual workload and reducing report turnaround time
- Analysed behavioural patterns across 1,000+ corporate clients holding loans exceeding THB 10M, surfacing credit risk signals to support loan management decisions
- Led healthcare data integration as part of a Bangkok Bank strategic initiative, consolidating disparate medical data into a centralised data source within a cross-functional 5-person team
- Designed compliant and scalable data storage architecture for sensitive medical data, evaluating security frameworks to meet regulatory requirements
- Drove on-time delivery of data products by managing agile sprint workflows, preventing task overspill and maintaining velocity across reporting cycles
- Bridged business and technical teams by leading weekly stakeholder meetings, translating ambiguous requirements into actionable data deliverables
- Developed rule-based fraud detection and loan repayment models in Python and SQL on Databricks, enabling automated decision-making on high-value corporate accounts

**LIH Data Analysis (in collaboration with Arpana)**

Melbourne, Australia

**Data Analyst | University of Melbourne**

Mar 2023 – Nov 2023

- Translated stakeholder requirements into Power BI dashboards aligned with Australian radiation safety regulatory standards, improving operational visibility across 50+ healthcare sites
- Designed KPI frameworks and data models in Python and R, increasing accuracy and consistency of business reporting and reducing manual interpretation effort

## Extended Education

**Zhejiang University**

Advanced Mandarin Language Program

Zhejiang, China

Feb 2024 – Jan 2025

- Completed a full-time intensive Mandarin language program, attaining advanced proficiency in reading, writing, listening, and spoken communication
- Developed professional-level cross-cultural communication skills through 12 months of immersive on-campus engagement in a Mandarin-speaking environment

## Interests and Development

- Passionate about digital transformation and applying statistical modelling to drive real-world business impact
- Actively follow emerging AI technologies, particularly the use of LLMs for data-driven decision making
- Cycling, Badminton and WSET Level 1 certified in Wine Studies
